## ICBC's Road Improvement Program

We care about building safer communities and safer roads, and have invested more than \$120 million in road improvements across the province since 1989.

ICBC's Road Improvement Program works in partnership with municipalities and the provincial government on delivering road enhancements. Projects include roundabouts, pedestrian signals, rumble strips, medians, sign upgrades and intersection improvements.

In 2013, ICBC invested \$8 million in road improvements projects across B.C.

We work with communities to identify high-crash areas and make improvements that benefit everyone – drivers, cyclists and pedestrians. Simply put, safer drivers and roads mean fewer crashes, injuries and deaths.

If you'd like to learn more about the program or have a suggestion for making a road or intersection in your community safer, contact your ICBC road safety coordinator.

2013 road improvement program investments for Vancouver Island

**\$1.4 million**

**Crash statistic notes:** 1. Counts have been rounded; 2. n/a means counts are too low to report; 3. 'Other\*' includes crashes in communities not listed; 4. Counts may change due to late reporting or corrections to the data; 5. Source: ICBC Business Information Warehouse as of April 30, 2014; 6. Data include crashes in parking lots and crashes involving parked vehicles. **Road Improvement Program notes:** investment figure includes only projects completed in 2013. The total investment by region may vary from the total (annual) RIP investment. Projects not yet complete and certified by ICBC's Road Safety engineer(s) are not included in the regional lists.
