

What to do after a crash

Step one

If anyone's injured, call 911.

Move the vehicles off the road, if it's safe to do so.

Avoid discussing who's at fault for the crash.

Step two

Record the following for all vehicles and drivers involved in the crash:

- driver name, contact information, driver's licence number and province/state,
- vehicle licence plate number, vehicle year, make and model,
- insurance details, if the vehicle isn't from B.C.

You may also need to provide this information to the police.

Step three

Look for witnesses. Record their names and contact information.

Step four

Describe the crash scene:

- What was the date, time and location?
- What were the weather and road conditions?
- What direction were each of you travelling?
- Where was your vehicle and what lane were you using?
- Where was the other vehicle and what lane was it in?

If possible, take photos, or use the diagram on the back of this card.

Step five

Report your claim.
