

# Fatal crashes

## Reported by police, by region and in B.C.

Region	2014	2015	2016	2017	2018	5-year average
Lower Mainland	92	95	103	91	91	95
Vancouver Island	27	37	38	30	42	35
Southern Interior	92	89	77	82	84	85
North Central	45	55	56	56	54	54
Unknown	0	1	0	0	0	1
<b>British Columbia (total)</b>	<b>256</b>	<b>277</b>	<b>274</b>	<b>259</b>	<b>271</b>	<b>268</b>

Fatal crash: Refers to a crash where a road user died within 30 days after the date when an injury was sustained in a crash involving at least one motor vehicle. Excludes roads where the Motor Vehicle Act does not apply, such as forest-service roads, industrial roads and private driveways. Also excludes off-road snowmobile crashes, homicides and suicides.

5-year average for fatal crash counts are rounded to the nearest whole number.
