---

In accordance with evidence informed best practice, and as applicable to the injuries sustained by the patient, the patient has received education with respect to:

- the desirability of an early return, without limitation, to being able to perform the activities the patient could perform before the injury and if applicable, to the patient's employment, training or study
- an estimate of the probable length of time that symptoms will last
- the usual course of recovery
- the probable factors that are responsible for the symptoms the patient may be experiencing
- appropriate self-management and pain management strategies
