

ICBC Vendor Number Application Requirements

Applying to add a practitioner to an existing vendor account

In order to apply to add a practitioner to an existing vendor account, the applicant will require their existing vendor number and an [ICBC Portal PIN](#) to log into ICBC's Health Care Vendor Application System. Applicants may add multiple practitioners to their existing vendor account at once.

Applicants are able to save and return to their application after they add each practitioner. Once the application has been submitted for review, the applicant will not be able to make any changes to the application. Upon successful submission of an application, an email confirmation with your ICBC application number will be sent in 2-4 business days to the communications email address listed on your vendor account.

Applications that are incomplete or contain inaccurate information will not be considered. If ICBC receives an incomplete or inaccurate application, the applicant will be notified that their application has been rejected. In order to minimize the likelihood of submitting an incomplete or inaccurate application, please review all of the application requirements carefully.

Invoicing for practitioners that have not been approved to bill under the applicant's vendor account is strictly prohibited. If the applicant receives approval to invoice for the practitioner that they have requested to add, the approval is only to invoice for approved services provided to an ICBC customer effective the date the application to add the practitioner was approved. ICBC does not permit retroactive invoicing (i.e. invoicing for services performed prior to the date that the application to add the practitioner was approved).

Please note: ICBC is currently reconciling all vendor accounts. Vendor Account Reconciliation is an ongoing process that ensures that vendors meet and maintain all of the ICBC Vendor Number Requirements. Vendor Account Reconciliation may be initiated at any time, and may align with any applications to add a practitioner to a vendor account.

General Vendor Requirements and Business Information

This section outlines the Business Documents and Business Information that must be provided by all businesses (or sole practitioners) applying to add a practitioner to their existing vendor account.

Business Information Required:

The following is a list of business information that the applicant will enter into in the new Health Care Vendor Application system:
