## **MDSS Implementation Update Announcement**

**January 22, 2016**

**Attn: ICBC Industry Partners**

---

**Subject: Material Damage Strategic Solution (MDSS) Project Implementation Update**

Please be advised that in an effort to align with other 2016 ICBC corporate priorities, the Material Damage Strategic Solution (MDSS) project will shift to an early 2017 go-live.

MDSS anticipates an early 2017 rollout beginning with a pilot, followed close behind by a regional, phased implementation. The exact rollout sequence will be determined during the re-planning phase over the coming months.

This timeline shift will allow the project team to continue working closely with Mitchell to deliver the best possible solution for our industry partners and staff.

Your continued support is appreciated as we work towards the implementation of our new material damage estimating platform.

If you have any further questions about the project, please feel free to contact Ron Tang, MDSS Working Sponsor, or Mike Wilson, MDSS Business Lead, directly.

Gerry Tyller  
Sr. Director, Material Damage  
Business Sponsor, MDSS
