

## ICBC Replacement Vehicle Daily Rental Rates and Classes

When considering the customer's rental vehicle needs, the customer's policy (including limits with respect to rental coverage) needs to be reviewed.

The customer must be advised that the rental vehicle will be in a comparable rental class (e.g. make, model, size) to the vehicle they own. It is within ICBC's discretion to determine the type of rental vehicle.

This rental rate document contains examples of vehicle makes and models listed by rental class with the corresponding daily rental rates. There may be other rental vehicles offered by our preferred rental suppliers.

Specialty vehicles (denoted by an asterisk (\*)) are not offered to customers at the daily rental rates. Customers who wish to rent a specialty vehicle may be required to pay additional charges which will not be covered by ICBC. Examples of specialty vehicles include Mini Cooper, Smart ForTwo, and BMW 7 Series.
