

Windshield Chip?

Why replace a windshield when you can easily repair it while saving money?

With ICBC's Comprehensive coverage, qualifying windshield chips can be repaired:

- Free of charge
- Quickly and conveniently in as little as an hour
- By trained technicians using high quality materials
- With no impact to your deductible
- As often as needed during your policy term

Even better, since windshields are not recyclable, you are helping the environment by keeping waste out of landfills.

Just remember, the sooner a repair is done, the better, as delays can lead to further damage making a repair not possible.
